Summary of Testing Methods & Key Findings

A summary of the testing method used, challenges encountered and lessons learned, and non-conformities discovered, if any.

As the primary users of eQMs in our domain setting are FQHCs, we obtained permission and cooperation from our largest FQHC clinic that operates 4 physical facilities, including mobile units, which recorded over 125,000 patient visits in CY 2024, and uses these features extensively throughout the year to monitor and improve their compliance with value-based medicine guideline.

There were no challenges, or non-conformities. All certified CQMs were utilized and reported.

Standards Updates

Products certified with voluntary or optional SVAP and USCDI standards updates, if any.

Care Setting

These test results are from transactions executed in a community health, outpatient, primary care setting.

Metrics and Outcomes

Testing measurements that demonstrate that the product is compliant with certification criteria and is exchanging HIE in the care setting.

Measurement	Use Case 1 - Process CQMs
Criteria	170.315(c)(1), (c)(2), (c)(3)
Outcome	<p>The test was conducted on December 1st, 2024.</p> <p>During the testing we review audit logs from January 1st, 2024, to December 2024 confirming that all input information related to CQM was recorded in the system and exported.</p> <p>This feature was used by the client under test. All certified CQMs were tested and all (100%) of the eCQMs tested performed as expected: (1) all encounters were automatically recorded, and all CQMs allow for manual user input; (2) users were able to follow the training guides to run and export the measure data without assistance; (3) there are no system restrictions as to when or how often users can run CQMs, and (4) while a QRDA export is an available option, client chose not to use it.</p> <p>All import can calculations were done when creating the reports. We check the logs to confirm this on December 1st, 2024.</p> <p>All Reports were created with no failures. This test was performed on December 1st, 2024</p> <p>Testing process was successful.</p>
