Test Results

Changes to Original Plan

Changes to the the RWT approach as outlined in the Plan, if any.

Summary	none.
Reason	none
Impact	none

Withdrawn Product

Products withdrawn during the past year that were outlined in the Plan, if any.

Product	none
Version	
CHPL ID	
Date	
Data Incl'd	

Summary of Testing Methods & Key Findings

A summary of the testing method used, challenges encountered and lessons learned, and non-conformities discovered, if any.

We obtained permission and cooperation from our largest clinic that operates 4 physical facilities, including mobile units, which recorded over 125,000 patient visits in CY 2024, yet even with this relatively high number, our broadest reach, there were no patient-originated requests during the test period.

The challenge we face is that this is essentially a technical feature that is still virtually unknown to end users, but perhaps even more problematic, the clinic administrators still principally request and inbound patient data from paper (or fax) and are generally both unaware of and uneducated as to the capabilities of electronic patient data exchange.

Standards Updates

Products certified with voluntary or optional SVAP and USCDI standards updates, if any.

Standard (and Version) Updated	USCDI v1
Updated Cert Criteria & Product	e1
Health IT Module CHPL ID	15.05.05.1171.BRIL.02.01.1.221219
Method Used for Update	CURES Update
Date of ONC ACB notice	11/15/2022
Date of customer notice	10/01/2024
Conformance Measure	Use Case 1 - VDT Health Data to 3 rd Party

Care Setting

These test results are from transactions executed in a community health, outpatient, primary care setting.

Metrics and Outcomes

Testing measurements that demonstrate that the product is compliant with certification criteria and is exchanging EHI in the care setting.

Measurement	Use Case 1 - View, Download, and Transmit Health Data to a 3rd Party
Criteria	170.315(e)(1)
Outcome	<p>Not used.</p> <p>There were no patient-originated CCD download requests during the test period.</p> <p>Although we checked the logs and there was no activity in the clients from 2024y. We prepare some test data to run this use case. We executed the test case between November 2024 and December 2024.</p> <p>We created 5 test patients.</p> <p>We used patient portal to login with the 5 test patients and we run the test cases. To do this we created some 10 CCD dummy documents for every test patient.</p> <p>For every patient we logged in user their credential in the patient portal and viewed, displayed and transmitted the CCD documents to a third-party recipient (email using PAUBOX).</p> <p>We were able to confirm that all test patients were able to view, download and transmit to a test email address CCD file.</p> <p>All these results were recorded un system audit log.</p> <p>We found no issues while running the tests.</p> <p>Testing process was successful.</p>
Challenges	We found no challenges

The certified criteria that are included in this test plan rely on the following 3rd party software, if any.

Product	PAUBOX Secure Email API

Key Milestones

Information regarding how and when developer-implemented measures and collected data relevant to milestone that were met during the RWT process for the above referenced care setting.

Milestone	Timeframe	Status
Obtain representative participation from clinic	2023 Q4	MET
Project kickoff with team of internal and customer representatives	2024 Q1	MET
Check for data collected	2024 Q2, Q3, Q4	MET
Run final data collection for plan year and prepare report	2025 Q1	MET

Change Log

Date	Author	Comment
2023.10.15	m. rodriguez	Initial Document
2025.01.30	m. rodriguez	add 2024 RWTP results
2025.02.04	m. rodriguez	add 2024 test results
2025.02.11	m. rodriguez	Fix content document
